## RINSPEED BEDOUIN - TECHNISCHE DATEN / TECHNICAL DATA

|                           |  |                         |
|---------------------------|--|-------------------------|
| Länge                     | 4'458 mm                                       | Length                  |
| Breite                    | 1'975 mm                                       | Width                   |
| Höhe                      | 1'458 mm                                       | Height                  |
| Radstand                  | 2'350 mm                                       | Wheelbase               |
| Spur vorne                | 1'562 mm                                       | Track front             |
| Spur hinten               | 1'675 mm                                       | Track rear              |
| Bodenfreiheit             | 158 mm   | Ground clearance        |
| Leergewicht               | 1'640 kg                                       | Empty weight            |
| Höchstgeschwindigkeit     | 250 km/h limitiert /<br>limited                | Top speed               |
| Beschleunigung 0-100 km/h | ca. (approx.) 5.9 sec                          | Acceleration 0-100 km/h |
| Motorenfamilie            | Porsche 996                                    | Engine family           |
| Hubraum                   | 3'600 cm <sup>3</sup>                          | Displacement            |
| Hub                       | 100.0 mm                                       | Stroke                  |
| Bohrung                   | 76.4 mm  | Bore                    |
| Aufladung                 | Twin Turbo                                     | Charging system         |
| Ladeluftkühler            | 2  | Intercoolers            |
| Zylinder                  | 6 Boxer  | Cylinders               |
| Ventile                   | 4 in V - DOHC                                  | Valves                  |
| Kompression               | 9.4 :1   | Compression ratio       |
| Leistung                  | 420 PS / hp (309 kW)                           | Power output            |
| bei                       | 6'000 /min                                     | at                      |
| Drehmoment                | 560 Nm   | Max. torque             |
| bei                       | 2'700 /min                                     | at                      |
| Aufladung                 | 1.85 - 2.0 bar                                 | Supercharging           |
| Betriebsart               | Bivalent                                       | Running type            |
| Betriebsstoffe            | Benzin / Erdgas<br>Gasoline / Natural gas      | Type of fuel            |
| Auspuffsystem             | Remus Sport                                    | Exhaust system          |
| Fahrgestell               | Stahl / steel                                  | Chassis                 |
| Karosserie                | Pre-Preg-Composite                             | Body                    |
| Lichttechnologie          | LED In.pro.                                    | Lighting technology     |
| Sitze                     | 2 + 2  | Seating capacity        |
| Bremsen vorne             | 330 mm   | Front brakes            |
| Bremsen hinten            | 330 mm   | Rear brakes             |
| Fahrwerk                  | Eibach höhenverstellbar /<br>Height adjustable | Suspension              |
| Aufhängung vorne          | IFS / Stabilisator                             | Front suspension        |
| Aufhängung hinten         | Mehrlenkerachse /<br>Multi-lever-axle          | Rear suspension         |
| Lenkung                   | Wandfluh R+P                                   | Steering                |
| Lenkwinkel                | 185 °  | Steering angle          |
| Bereifung vorne           | 255/55 - 18                                    | Front tires             |
